Technical Visit to Hong Kong West Drainage Tunnel
港島西雨水排放隧道工地參觀

Date of Site Visit: Saturday, 26 March 2011
Time: 9:30 am to 12:00 noon
Assembly: 9:30 am Sharp at the GMB Stand No. 58 - Cyber Port Arcade (Please see attached Map)
Capacity: 20 (*First come, first served*)

Program Highlight:

Over the years, while Drainage Services Department has made various improvements and extensions to the aged systems, the improved drainage systems still fall short of current flood protection standards and are inadequate to deal with the flooding caused by heavy rains or typhoons. To alleviate the long-term flooding problem, Drainage Services Department has carried out in-depth studies on the stormwater drainage systems and finally adopted a stormwater interception approach and proposed implementation of the Hong Kong West Drainage Tunnel Project. The Project consists of building a drainage tunnel spanning from Tai Hang to Cyberport. The newly built tunnel can intercept and convey stormwater from the upper catchment to the sea near Cyberport.

**** Attendance certificates will be issued for this visit. ****
