About the Speaker:

Tsang Wong is a Director of Construction Solutions Asia in the FTI Forensic and Litigation Consulting practice based in Hong Kong. As an experienced construction professional, Mr. Wong has a broad range of experience in engineering, construction management, construction consulting, dispute resolution and litigation support. Mr. Wong provides project advisory on contract strategy, project risk management, project scheduling and project controls, procurement management, and data management systems. Mr. Wong is a licensed Professional Engineer in California, USA. He holds a graduate degree in Structural Engineering from Stanford University and an undergraduate degree in Civil Engineering from the University of Hawaii at Manoa. Prior to joining FTI Consulting, Mr. Wong worked with the Construction Consulting practice of Exponent in California, USA, and Black & Veatch Corporation in California, USA and Hong Kong.

No pre-registration is required. If free carparking or attendance certificate is required, please send name and contact details to Prof. Gang Wang (gwang@ust.hk, phone: 2358-7161).
