

## ASCE Greater China Section and Region 10 Delegation Visited Guangxi

On the morning of May 15, 2026, a delegation from the American Society of Civil Engineers (ASCE) Greater China Section visited the Department of Housing and Urban-Rural Development (DHURD) of Guangxi Zhuang Autonomous Region. An exchange meeting was held in Nanning alongside the DHURD and the Guangxi-Hong Kong Nature-Based Urban & Rural Development Research Center (“the Research Center”). The discussions focused deeply on topics such as international cooperation in the protection of ethnic historical buildings, ASEAN-oriented construction project quality and safety management, and the cross-border cultivation of construction engineering professionals. Yang Lufeng, Director-General of the DHURD of the Autonomous Region, presided over the meeting and delivered a speech. Jiang Hao, President of the ASCE Greater China Section, and Prof. Wang Yuhong, Co-founder of the Research Center, attended the meeting and delivered speeches.

Exchange Meeting

Professor Dong You, Vice President of the ASCE Greater China Section, Professor Yan Shu, ASCEGC Director, Professor Deng Xiaowei, ASCEGC Director, attended the exchange meeting and participated in the exchange meeting as well as Professor Li Chao, Governor of the ASCE Region 10. The ASCE Greater China Section has been deeply cultivating its professional field, actively building a communication bridge between China and the United States in the fields of civil engineering and urban-rural construction, and promoting deep cooperation among industry, academia, and research institutes. It is hoped that, by leveraging Guangxi's opening-up advantages toward ASEAN, substantive cooperation can be carried out in areas such as historical building protection, engineering quality and safety, green intelligent construction, and cross-border training of professional talents. This will deeply integrate international advanced concepts with local practices in Guangxi, helping to promote China's construction standards and technological achievements to ASEAN countries.

On the afternoon of May 15, 2026, the delegation of the ASCE Greater China Section and ASCE Region 10 visited the Guangxi Urban-Rural Planning and Design Institute. They engaged in an exchange activity with the leaders of the design institute, focusing on topics such as technical innovation, project cooperation, and engineering technology collaboration in the field of engineering design. Attending the symposium were guests and leaders including Qiao Yongping, Director of the Prospecting, Design and Fire Protection Supervision Division of the DHURD; Xie Yong, President of the Guangxi Exploration and Design Association; and Yan Shu and Wang Yuhong, Co-founders of the Research Center. Leaders from the Guangxi Urban-Rural Planning and Design Institute, Wu Jiajia, Xu Weichao, Chen Haitao and Li Peng participated in the symposium.

Sharing by Prof. Wang Yuhong, Co-founder of the Research Center and Director of the Research Center for Nature-Based Solutions for Urban Infrastructure at The Hong Kong Polytechnic University

Professor Dong You, Vice President of the ASCE Greater China Section, Professor Yan Shu, ASCEGC Director, Professor Deng Xiaowei, ASCEGC Director, and Professor Li Chao, Governor of the ASCE Region 10, attended the meeting and participated in the exchange. The ASCE Greater China Section highly recognized the active role played by the Guangxi Urban-Rural Planning and Design Institute and the Research Center in promoting international exchange and cooperation within the industry. As an authoritative international civil engineering organization, the ASCE Greater China Section possesses rich international resources, technological accumulation, and industry networks. It expresses a willingness to use this symposium as a bond to deepen exchanges and cooperation with the Guangxi prospecting and design industry as well as related institutions. By building platforms for technology R&D, mutual recognition of standards, talent training, and international project cooperation, it aims to promote mutual learning and exchange in the field of engineering technology between China and foreign countries, ultimately helping Chinese engineering technology better reach the global stage.

After the meeting and exchange activity, accompanied by experts from Guangxi, the delegation conducted a site visit and inspected Nanning's historical and Guangxi-style architecture, the "Three Streets and Two Alleys", Taiping Ancient Town, and the Huashan Rock Art.

## 美國土木工程師學會大中華分會與國際部代表團拜訪廣西

2026年5月15日上午，美國土木工程師學會大中華分會代表團拜訪廣西壯族自治區住房城鄉建設廳，與自治區住房城鄉建設廳、桂港基於自然生態的城鄉建設研究中心在寧南召開座談會，圍繞民族歷史建築保護國際合作、面向東盟的建設工程質量與安全管理、建築工程專業人才跨境培養等議題進行深入交流。自治區住房城鄉建設廳黨組書記、廳長楊綠峰主持會議並講話，美國土木工程師學會大中華分會主席江浩、桂港基於自然生態的城鄉建設研究中心聯合發起人王予紅參加會議並講話。

座談會現場

美國土木工程師學會大中華分會副會長董優教授、理事閻澍教授、理事鄧曉蔚教授和國際部理事李超教授出席座談會並交流。美國土木工程師學會大中華分會深耕專業領域，積極搭建中美土木與城鄉建設領域溝通橋樑，促進產學研深度合作。希望依托廣西面向東盟的開放優勢，在歷史建築保護、工程質量安全、綠色智能建造及專業人才跨境培養等方面開展實質性合作，將國際先進理念與廣西本地實踐深度融合，助力中國建設標準和技術成果向東盟國家推廣。

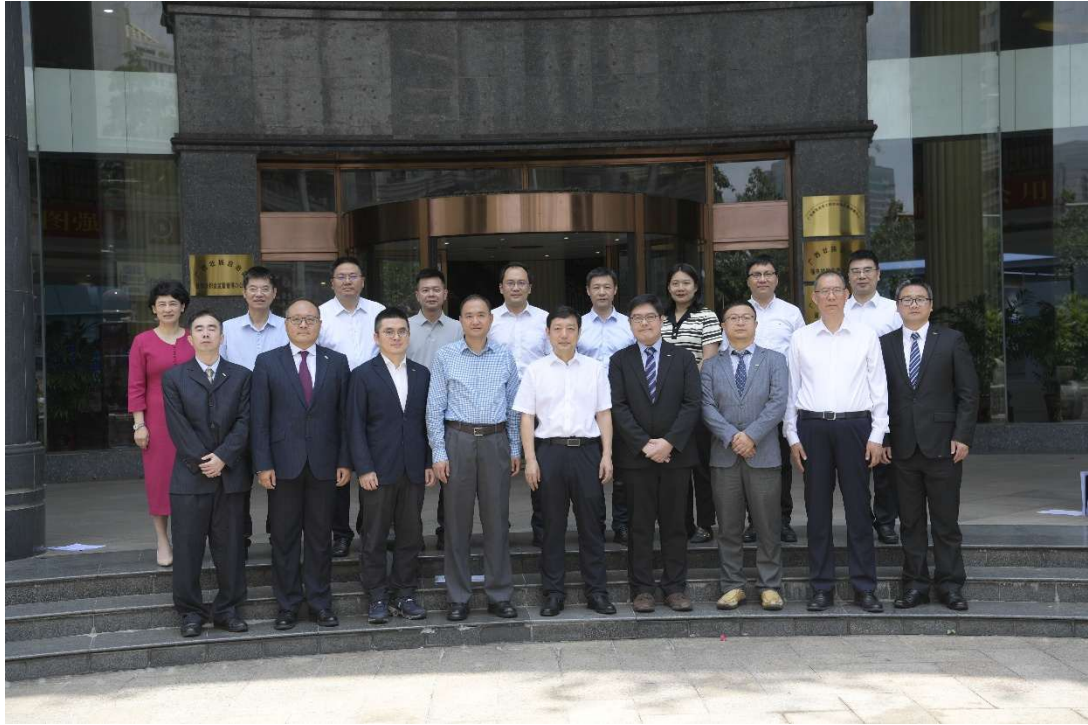

自治区住房城乡建设厅党组书记、厅长杨绿峰主持会议并讲话

华众联创工程顾问三地联营事务所总经理闫澍分享

桂港基于自然生态的城乡建设研究中心联合发起人、香港理工大学基于自然的城市基础设施解决方案研究中心总监王予红分享

美国土木工程学会大中华分会副会长董优教授、理事闫澍教授、理事邓晓蔚教授和国际部理事李超教授出席座谈会并交流。美国土木工程学会大中华分会高度认可广西城乡规划设计院、研究中心在推动行业国际交流合作中发挥的积极作用。美国土木工程学会大中华分会作为国际权威土木行业组织，拥有丰富的国际资源、技术积累与行业网络，愿以本次座谈会为纽带，深化与广西勘察设计行业及相关机构的交流合作，在技术研发、标准互认、人才培养、国际项目合作等方面搭建平台，促进中外工程技术领域的互学互鉴，助力中国工程技术更好走向世界。

座谈交流会后，代表团一行在广西专家的带领下，参观考察了南宁历史建筑与桂派建筑、三街两巷、太平古城、以及花山岩画等。
